

Commerce Resources Corp. Updates Community Dialogue and Information Exchange Program

August 21, 2015 - Commerce Resources Corp. (TSXv: CCE, FSE: D7H, OTCQX: CMRZF) (the “Company”) is pleased to report the completion of a recent round-table session in Kuujjuaq, as well as a project site visit, attended by several key Inuit organizations as part of its ongoing community dialogue and information exchange program. This process is one of many key aspects to be carried out as part of the ongoing Pre-feasibility Study (PFS) underway for the Ashram Rare Earth Deposit located in northern Quebec.

The objective of the round-table session was to further the ongoing dialogue between the Company and the community leaders, extend the dialogue to additional community organizations, present the current status of the project in detail, and gather feedback in order to maximize the social, environmental, and economic benefits of the project.

The round-table was well attended, and well received, with the following Inuit organizations present:

- Makivik Corporation
- Northern Village of Kuujjuaq (NV)
- Nayumivik Landholding Corporation (LHC)
- Nunavik Landholding Corporation Association (NLHCA)
- Local Hunting Fishing Trapping Association (LNUK)
- Nunavik Hunting Fishing Trapping Association (NHFTA)
- Kativik Regional Government (KRG)
- Kativik School Board (KSB)
- Nunavik Regional Board of Health and Social Services (NRBHSS)
- Nunavik Mineral Exploration Fund (NMEF)
- Nunavik Investment Corporation (NIC)

The Company intends to follow-up this round-table session with an open-community information exchange and discussion session to continue the dialogue the Company has been engaged in since 2008. The feedback from the community will be incorporated into the overall

Project Description to further refine and maximize the social, environmental, and economic benefits.

Project Site Visits

On August 3rd, a site visit to the project was hosted by the Company and attended by the President of Makivik, Jobie Tukkiapik, Makivik's Mining Liaison, Ron Gordon, the Mayor of Kuujjuaq, Tunu Napartuk, as well as three board members of the Nayumivik Land Holding Corporation of Kuujjuaq, George Peters, George Berthe, and Robbie Kooktook. Mr Peters is also President of the Nunavik Landholding Corporation Association (NLHCA), while Mr Berthe is also the General Manager of the Nunavik Investment Corporation (NIC), as well as being a councillor for the town of Kuujjuaq (NV).

The site visit included a tour of the Ashram Project's proposed infrastructure sites (tailings management facility options, open-pit and dyke, process plant, haul road, and airstrip), current drill site, and the deposit's discovery outcrop.

On August 6th, another site visit to the project was also completed with the Naskapi of Kawawachikamach, from the Schefferville area. The visit was attended by the Chief, Noah Swappie, the Cultural Skill Coordinator, and two Elders. The visit was an excellent opportunity to further the ongoing dialogue with the community and will be followed up with a presentation to council, planned to occur this fall.

James Bay and Northern Quebec Agreement (JBNQA) and Northeastern Quebec Agreement (NEQA)

The Ashram Deposit is located in the Nunavik Territory of Quebec which lies within the region covered by the James Bay and Northern Quebec Agreement (JBNQA), and the Northeastern Quebec Agreement (NEQA), which are the first two modern treaties between aboriginal peoples and Canada.

The JBNQA, completed in 1975, is a comprehensive land claims agreement between the aboriginals of Northern Quebec (Cree and Inuit), and Canada (Federal and Provincial). The treaty is heralded as first modern treaty between Canada and its aboriginal peoples. The JBNQA settles aboriginal land claims, and provides for financial compensation to local peoples, outlines harvesting rights, as well as establishes land categories and a mechanism for dialogue, consultation, and resource management.

The signing of the JBNQA also established school boards, re-structured health services, created the Kativik Regional Government (KRG) to deliver public services, and created the Makivik Corporation which is mandated to protect the rights and interests of the Inuit as provided for under the JBNQA.

The Naskapi of Kawawachikamach are a First Nation peoples and signatories to the Northeastern Quebec Agreement (NEQA), completed in 1978. Similar to the JBNQA completed 3 years prior, the NEQA settles Naskapi land claims and defines the rights and interests of the Naskapi, including harvesting rights, as well as providing a mechanism for dialogue, consultation, and resource management.

NI 43-101 Disclosure
