

Commerce Resources Corp. Announces Participation in Zoom with Zimtu Investor Presentation Featuring the Fluorspar Market

January 19th, 2021 – Commerce Resources Corp. (TSXv: CCE, FSE: D7H0) (the “Company” or “Commerce”) is pleased to announce that President Chris Grove will participate in the first Zoom with Zimtu investor presentation for 2021 featuring the fluorspar market on Wednesday January 20th.

Fluorspar (also called fluorite) is the mineral form of calcium fluoride, CaF_2 . An important industrial mineral, fluorspar is considered a critical/strategic mineral by the European Union and the United States. Critical and strategic minerals are metals and non-metals that are considered vital for the economic well-being of the world's major and emerging economies, yet whose supply may be at risk due to geological scarcity, geopolitical issues, trade policy, or other factors.

Fluorspar is an essential raw material to the steel, aluminium, pharmaceutical, and chemical industries in two marketable products: acid spar grade and met spar grade. Fluorspar cannot be recycled and must be continuously mined to feed the world's growing demand. Today the market is in a state of flux, because in 2018 China, the world's largest producer and consumer of fluorspar, became a net fluorspar importer for the first time. This is mainly attributed to Chinese industrial users whom consume most of China's domestic production in steel manufacturing.

To participate in Wednesday's Zoom with Zimtu investor presentation featuring the fluorspar market please note the following:

Date: Wednesday January 20th, 2021

Start time: 10:00 AM PST (Vancouver) / 1:00 PM EST (Toronto) / 7:00 PM CET (Frankfurt)

Where: Virtually via Zoom Video Conferencing

Zoom video link to join: <https://us02web.zoom.us/j/81216258103>

Wednesday's Zoom with Zimtu presentation will also feature Stephan Bogner from Rockstone Research who will begin the presentation with a discussion of the current state of the fluorspar market. Rockstone Research specializes in the analysis of capital markets and publicly listed companies. Also presenting will be representatives from Ares Strategic Mining and Saville Resources.
